

Guardians

From Destruction to Restoration

summary:

It begins as a simple road trip turns into a thrilling mission of discovery, survival, and environmental responsibility

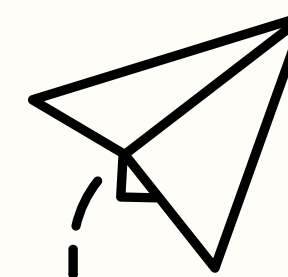

The game focuses on:

Environmental
storytelling

Exploration and
puzzle-solving

A meaningful message about
reversing desertification

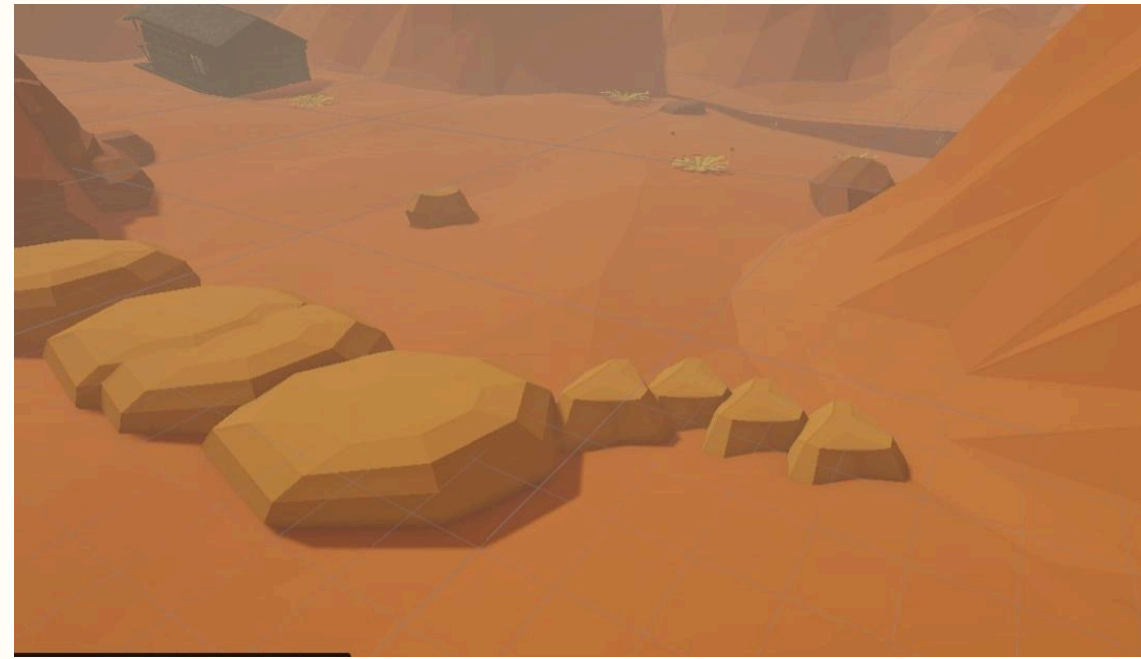

Why the game is compelling

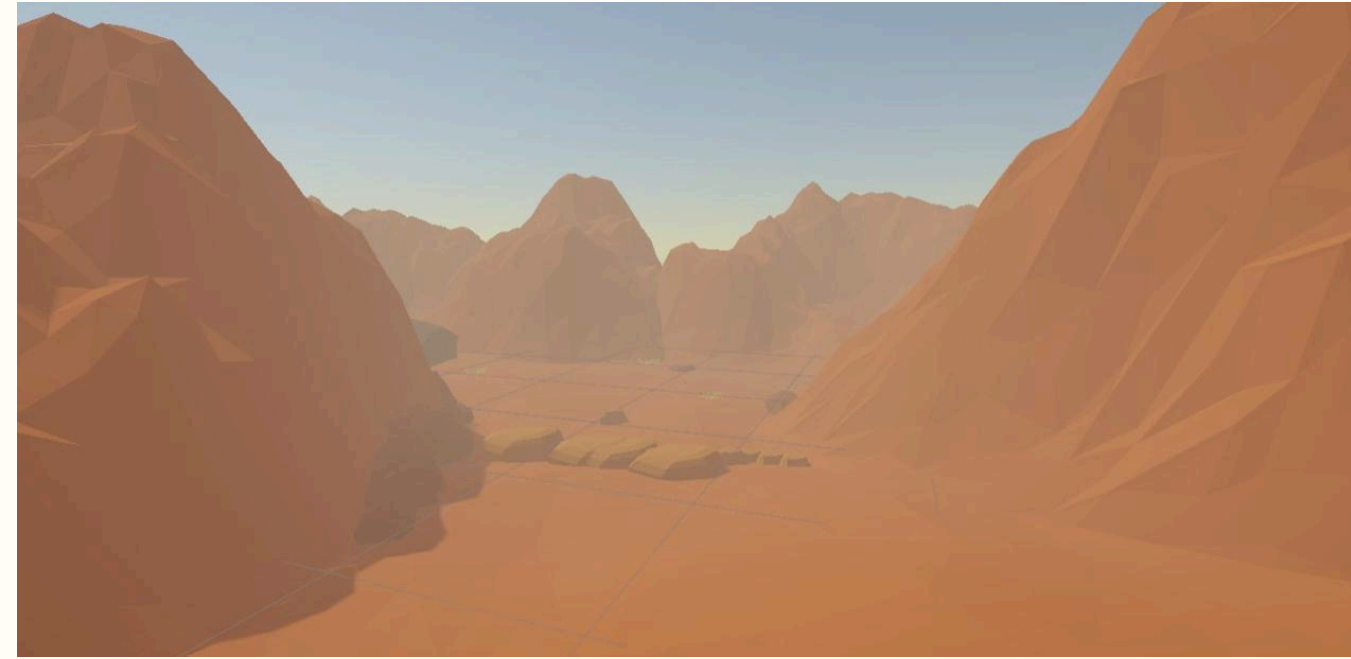

A Unique Blend of Adventure + Environmental Purpose

Players aren't just surviving — they're restoring life to a dying land. The game combines excitement with a meaningful message, making players feel that their actions truly matter

Game pillars:

Exploration and
Discovery

Survival and
Environmental Challenges

Stealth and Smart
Problem-Solving

THE PUZZLES & ENVIRONMENTS:

Mask Filter Puzzle

Tool Assembly

Car Repair

The first stage:

01

Two friends drive across a vast desert when their car suddenly breaks down. while looking for tools, they discover an abandoned settlement guarded by a harsh shepherd. Players must outsmart him and gather the tools to repair the car

The second stage:

02

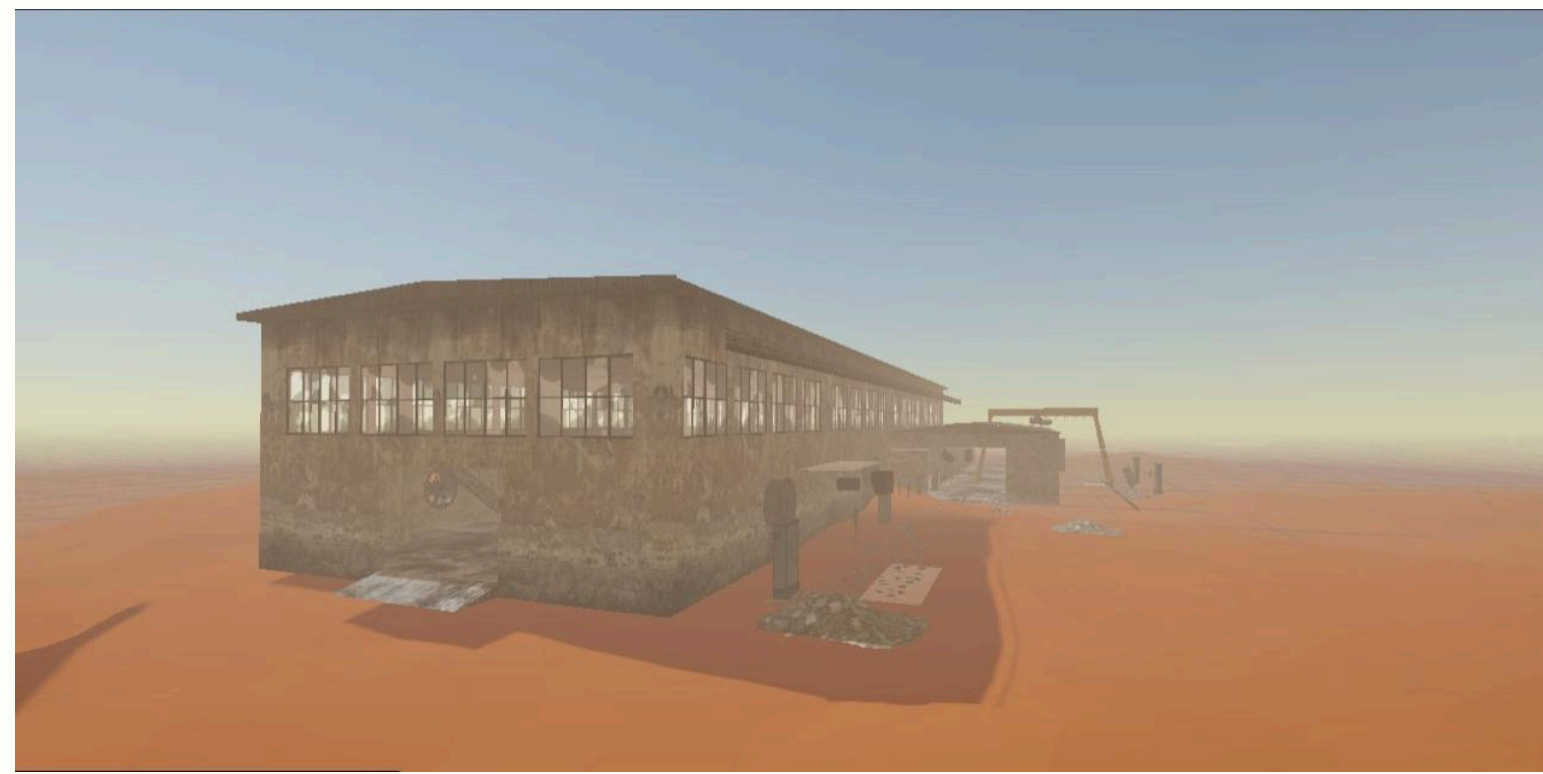

As they continue their journey, they encounter a polluted factory. The closer they get, the more their health decreases due to the toxic fumes. Players must manage their health, find protective gear, and gather key items — They also need to move carefully because the environment filled with obstacles and limited visibility.

The final stage:

03

The friends return to dry and empty land. In this final stage, the game becomes a creative mission to repair the environment. Players plant trees, manage their resources, and slowly watch the land become alive again.
